Do. D.—Showing the nature of the crimes for which convicts were imprisoned. 78 to 93

No. 2590 OF 1904.

From

H. N. ALEXANDER, ESQUIRE,
Inspector-General of Prisons,
Bombay Presidency;

To

THE SECRETARY TO GOVERNMENT,
Judicial Department,
Bombay.

Inspector-General of Prisons' Office,
Poona, 16th April 1904.

SIR,

I have the honour to submit the following Report on the Administration of Prisons, Jails and Lock-ups in the Bombay Presidency (including the Province of Sind and the Settlement of Aden) for the year 1903. I was in charge of the Department throughout the year.

JUDICIAL.

2. The number of Central, District, Special and Extra-mural Prisons has undergone no change during the year under report. The statistics of all the Third Class Subsidiary Jails have been grouped together along with Lock-ups as was done during previous years. Revised forms, registers, etc., for the use of Third Class Subsidiary Jails, have been sanctioned by Government in Government Resolution, Judicial Department, No. 6180, dated 23rd November 1903, and will be introduced as soon as printed.

3. From the general Summary preceding the statements in the appendices to this report, it will be observed that the total population of all classes of prisoners confined in Prisons, Subsidiary Jails, Lock-ups and Civil Jails, during the year under report, has been 94,258 as compared with 102,620 in the year 1902, a decrease of 8,362. The daily average population has been 9,188, showing a decrease of 2,414 over the figures of the year previous. The decrease under admissions will be commented upon in paragraph 5 of this report.

4. The following table, which compares the figures of the past two years, refers to the admission of convicts into Prisons and 1st and 2nd Class Subsidiary Jails only:—

Statement No. 1.—Number and disposal of convicts.

	1902.			1903.		
	Males.	Females.	Total.	Males.	Females.	Total.
Number remaining on last day of previous year. { Prisons	9,295	278	9,573	8,922	270	9,192
{ Jails	345	15	360	338	21	359
Imprisoned during the year. { Prisons	14,940	1,150	16,090	12,468	926	13,394
{ Jails	2,938	321	3,259	2,236	259	2,495
Total { Prisons	24,235	1,428	25,663	21,390	1,196	22,586
{ Jails	3,283	336	3,619	2,574	280	2,854
Grand Total	27,518	1,764	29,282	23,964	1,476	25,440
Daily average number	9,740	313	10,053	7,702	213	7,915

5. There has been a decrease in the number of convicts admitted into all our Prisons, with the exception of the Kárwár Prison and the Common Prison, Bombay, both of which show a very trifling increase. The decrease is most marked in the Central Prison of Ahmedabad—905, the Central Prison of Yerávda —439, the District Prison of Dhulia—383 and the District Prison of Dhárwár—

287. The general decrease in the admission of prisoners is due, there can be no doubt, to good crops and cheap food. There has also been a decrease in the admissions of female prisoners in almost all our Prisons. 1,185 females were admitted in the year under report against 1,471 in 1902.

6. With regard to the disposal of prisoners confined in our Prisons and First and Second Class Subsidiary Jails it would appear that 646 more prisoners were transferred than in 1902. Government, in their Resolution, Judicial Department, No. 1818, dated 13th March 1902, having raised the strength of the Deccan Gang to 1,200, I was able to relieve overcrowding and to this cause is chiefly due the larger number of transfers. A good many transfers of convicts suitable for the post of convict officers from one Prison to another further contributed to this rise. On the 3rd October 1903, 97 male and 7 female life and 79 male term transports, making a total of 183 prisoners, were deported to the Andamans in the Royal Indian Marine Steamer "Canning". The number released under the remission rules show a decrease of 326. No prisoners were released during the year on account of sickness. Out of a total of 1,855 releases "on other grounds" no less than 1,845 prisoners (1,662 males and 183 females) were released on the 1st January 1903 as a measure of clemency and grace in celebration of the auspicious occasion of the Coronation of His Most Gracious Majesty the King, Emperor of India. Two European convicts were released from the House of Correction and deported to England. Three permanently unfit life transports were released from the Yerávda Central Prison. The sentences of four prisoners confined in the Rájkot Prison were remitted by Government under Section 401 of the Criminal Procedure Code and the sentence of one prisoner confined in the Surat Subsidiary Jail was suspended conditionally by Government. The Resolutions sanctioning the above releases are noted in the margin. The number of escapes has fallen from six in 1902 to five in the year under report. The number of executions fell from 40 to 34. Of the 213 prisoners who died during the year, which shows a decline of 82 over the figures of 1902, 201 died in Prisons and 12 in Subsidiary Jails of the First and Second Class. 14 Burmese, against 45 at the end of 1902, and two State prisoners were confined on the last day of the year under report.

1. Government Resolution, Judicial Department, No. 5021, dated 19th September 1903.
2. Government Resolution, Judicial Department, No. 2742, dated 18th May 1903.
3. Government Resolution, Judicial Department, No. 355, dated 23rd January 1903.
4. Government Resolution, Judicial Department, No. 1469, dated 14th March 1903.
5. Government Resolution, Judicial Department, No. 2543, dated 9th May 1903.
6. Government Resolution, Political Department, No. 41, dated 12th January 1903.
7. Government Resolution, Judicial Department, No. 195 P., dated 1st July 1903 (Confidential).

7. Referring to the figures appearing in the statement noted in the margin, it would appear that except under the headings "Europeans", "Native Christians" and "all other classes", which show an increase of 57, there has been a decline under every head under "Religion". Of the 105 male and 67 female juveniles, 16 were previously convicted. Of the former number 51 males and 59 females were sentenced to one month and under, 28 males and eight females to above one month and under six months and 26 males to over six months. All the other heads under "Age" show a decline. There has also been a decrease throughout under "Education of Convicts". All the sub-heads under "Previous occupation" of male prisoners show a decrease except under the heads "Prisoners employed under Government or Municipal or other local authorities" and "Prisoners in service or performing personal offices". The sub-heads "Unmarried" and "Prostitutes" under "Previous occupation of females" show an increase, the other two heads show a decline. The percentage of number admitted to free population, according to the census of 1901, is 0·153 in the year under report as compared with 0·187 in the year 1902.

Statement No. II.—Religion, age, education and previous occupation of convicts.

8. With the decline in the admissions into our Prisons and Subsidiary Jails of the First and Second Class, there is naturally a decrease in nearly all heads of this statement as compared with last year. There is a slight increase

Statement No. III.—Nature and length of sentence.

under "Number of prisoners sentenced to above 5 and not exceeding 10 years" and a considerable increase under "Sentenced to death". As was expected there was a great rise in the number of prisoners sentenced to rigorous imprisonment with solitary confinement. The numbers during the year under report are 358 as compared with 46 in 1902 and 30 in 1901.

Statement No. IV.—Re-convictions.

9. With the great decline in admissions there has been a very small decrease in the number of prisoners who were classified as habituals by the Courts as compared with last year. The figures are given in the subjoined table.

1	2	3	4	5	6	7	8
Number.	Prisons.	Number of convicts admitted during the year.	Number of convicts in column 3 identified as habitual offenders before conviction and whose previous convictions appear in the records of proceedings at the trial.	Number of convicts in column 3 not so identified and whose previous convictions did not so appear, but who were after arrival in Jail identified as habitual offenders.	Number of prisoners who confessed themselves to be habituals.	Total of columns 4 to 6.	Of the prisoners shown in column 7 the number classified by courts as habituals.
1	Common Prison ...	3,884	474	282	...	756	277
2	House of Correction.	352	184	...	...	184	133

17	Aden	94	7	2	...	9	1
	Total ... 1903 ...	13,394	1,948	521	40	2,509	1,288
	Total ... 1902 ...	16,090	2,373	655	74	3,102	1,302
	Total ... 1901 ...	16,723	2,523	538	119	3,180	1,452

10. From the information supplied by the Inspector-General of Police it appears that 532 persons were identified in the Bombay Presidency, exclusive of Sind, by means of finger tip impressions as compared with 425 in the year previous. Of the former number 97 were identified in both the Bombay Prisons, 73 in Ahmedabad, 70 in Yerávda, 51 in Dhulia, 35 in Thána, 34 in Bhusával, 25 in Sholápur, 22 in Ahmednagar, 21 in Násik, 20 in Bijápur, and the rest in the other parts of the Presidency.

Statement No. V.—Escapes and recaptures.

11. Out of the seven escapes from within the walls five got away at one time from the Hyderabad Central Prison, one from the Aden Special Prison, and one from the Subsidiary Jail of Bhusával. Of the nine prisoners who escaped from without the walls of Prisons and Subsidiary Jails and who were all employed on extra-mural work, three got away from the Hyderabad Central Prison, one from each of the Prisons of Dhárwár, Karáchi, Shikárpur and the Sind Gang, and one each from the Subsidiary Jails of Surat and Alibág. Of the five prisoners who escaped from within the walls of the Hyderabad Central Prison, one was a convict overseer, three were night watchmen and one an ordinary

convict. The convict overseer was, on the day of escape, posted on the north-east corner of the main wall and wilfully abused the trust and confidence placed in him as a convict officer. The five prisoners got over the part of the wall guarded by the overseer and thus escaped. A convict overseer on duty at another part of the wall gave the alarm and the runaways were all recaptured, four out of the five within three hours of the escape. Of the 16 prisoners who got away during the year under report, 11 have been recaptured. Four prisoners who had escaped during the previous ten years were also captured during the year.

12. The marginally noted statement deals with the offences committed by and punishments awarded to convicts confined in Prisons and Subsidiary Jails of the First and 2nd Class. The offences dealt with by Criminal Courts have increased from 20 in the year 1902 to 36 in the year under report. This increase is in a great measure due to the larger number of escapes. The details of these offences are noted in the margin.

Statement No. VI.—Offences and punishments.

Section 52, Prisons Act.

	1902.	1903.
Relating to work	6	8
Do. prohibited articles	...	1
Do. assaults, mutiny and escapes.	4	3
Do. all other breaches of Jail rules.	...	1
Indian Penal Code.		
Attempting to commit suicide	...	2
Unnatural offences	1	1
Causing hurt	5	2
Do. grievous hurt	1	3
Illegal gratification	1	2
Escape	2	11
Dishonestly receiving stolen property ...	...	2
	20	36

13. Although the number of offences committed by convicts during the year under report is smaller than that of the year 1902, still the percentage of Jail punishments to daily average strength has risen from 101·4 in 1902 to 118·6 during the year under report. This is not altogether surprising. With a smaller number of prisoners to deal with the paid establishment were in a better position to maintain discipline. It will be seen that offences relating to prohibited articles have fallen from 2,156 in 1902 to 1,817 in 1903. This is, to a great extent, due to a much smaller number of these offences occurring at the Central Prison, Ahmedabad. On this subject Mr. Pegge, the late Superintendent of this Prison, wrote in August last :—"Taking the daily average of convicted males, for they are the only class amongst whom forbidden articles are found in this Prison, it is found that in the past four years the percentage of offences regarding prohibited articles to strength was as follows :—in 1899 45·66, in 1900 58·8, in 1901 44·15, and in 1902 56·93. I have absolutely no *data* to explain why there should have been a rise of over 13 per cent. in 1900, a fall of over 14½ per cent. in 1901, and a rise again of 12¾ per cent. in 1902. Again in February of the current year the number of offences of this nature was 51 while in July it was only 25, and so far as I can ascertain no reason". This Prison has been very much overcrowded of late years, but I have hopes that now, with a normal population, the Superintendent will be in a better position to control this class of offence.

Offences dealt with—	1902.		1903.	
By Criminal Courts	20		36	
	Dealt with by minor punishments.	Dealt with by major punishments.	Dealt with by minor punishments.	Dealt with by major punishments.
By Superintendents.				
Relating to work	3,032	1,060	3,086	927
Do. prohibited articles.	1,777	379	1,453	364
Do. assaults, mutiny and escapes... ...	97	140	120	138
All other breaches of prison rules	2,948	677	2,532	677
Total ...	7,854	2,256	7,191	2,106

14. The subjoined table shows the punishments inflicted during the past two years from which it would appear that the total number of major and minor punishments awarded by Superintendents during the year under report were 9,391 and the total number of offences was 9,297. This difference is due to 94 offences in the past year having been dealt with by the award of "Combined punishments."

Punishments inflicted—		1902.	1903.
By Criminal Courts.		20	36
By Superintendents.			
Minor.	Warnings	1,650	1,244
	Penal diet	978	767
	Separate cellular and solitary confinement ...	200	157
	Hand-cuffing and link fetters	1,610	1,790
	Other punishments	3,482	3,317
	Total ...	7,920	7,275
Major.	Separate cellular and solitary confinement ..	314	210
	Penal diet with solitary confinement ...	129	320
	Fetters and hand-cuffing behind or to a staple ...	1,209	1,025
	Corporal punishments	129	79
	Combinations of minor punishments ...	177	163
	Other punishments	317	319
	Total ...	2,275	2,116
	Grand Total ...	10,215	9,427

15. Of the 9,391 punishments dealt with by the Superintendents of Prisons and Jails, 7,275 or 77 per cent. belong to the minor class, and 2,116 or 23 per cent. belong to the major class. Under the minor punishments all the heads except "Hand-cuffing and link fetters" show a decrease, and for the increase under this head the Central Prison, Yerávda, and both the Bombay Prisons are chiefly responsible. Under major punishments also there has been a fall under all the heads with the exception of "Penal diet with solitary confinement". The increase under the former head is due to the two Central Prisons of Yerávda and Ahmedabad having resorted more frequently to that form of punishment during the year under report. There has been a decline in the number of corporal punishments during the year 1903. The figures are 78 floggings in 1903 against 129 in 1902. While there was a slight increase in the number of floggings at the House of Correction there was a considerable decrease at the Central Prisons, Yerávda and Hyderabad, and the District Prisons of Dhárwár and Ratnágiri. The Superintendent of the Central Prison, Yerávda, writes :—"There is another marked fall in floggings, 22 against 42. Floggings have steadily diminished with the diminution of overcrowding in the Prison and the possibility of putting punishment cells to their proper use." At Dhárwár and Ratnágiri the number of floggings was high last year, due to exceptional causes. During the year 1903, there was one flogging at Dhárwár and none at Ratnágiri.

16. The following table gives particulars as to the number of stripes inflicted on prisoners :—

	1	2	3						4	5	6	
	*Total number of male prisoners for the year.	Total number of Prison offences.	Total number of prisoners punished by whipping.						Percentage of column 3 to column 1.	Percentage of column 3 to column 2.	Number of prisoners in whose case (a) death or (b) illness was directly or indirectly the effect of corporal punishment.	
			5 to 10 stripes.	Above 10 to 15	Above 15 to 20	Above 20 to 25.	Above 25 to 30.	Grand Total.			(a) Death.	(b) Illness.
Total ... 1902 ...	21,314	9,972	13	30	39	26	21	129	0·5	1·3	...	...
Total ... 1903 ...	21,437	9,158	9	7	21	15	26	78	0·4	0·3	...	...

* The figures exclude the number of prisoners moved from prison to prison within the Department.

17. During the year under report 5,321 prisoners wore fetters, compared with 6,200 in the year previous. This decrease is due to the decline in the total number of convicts confined in our prisons during the year under report.

Mark System.

18. From figures entered in Statement C, which is one of the appendices to this report, it will be observed that 2,227 prisoners were released under the mark rules during 1903 as compared with 2,553 prisoners in the year previous. The percentage, during the year under report, of those released under the mark system to the total number who might have been released under that system, if of average good conduct up to date of release, has also fallen from 99·1 in 1902 to 98·6 in 1903 which is due to an increased number of convicts having been removed from the mark register, 32 in the year under report as compared with 24 in the last year.

The mark system is not more popular than it was. It gives much trouble in Prison Offices and is not generally understood by the prisoners. The special marks, alluded to in Rule 515 (7) of the Jail Manual, were given for the first time during the year. This rule lays down that prisoners are eligible for a special award of marks, not exceeding 360, if they are not punished during the year. Prisoners not only appreciate but understand this rule. During my inspection of Prisons I found men who were able to tell me with some pride that they had earned 15 days' remission because they had committed no offence during the year and had worked well and yet were quite ignorant of the fact that they had earned besides about 25 days remission—the value of the ordinary marks received by them during the year.

Statement No. VII—Convict Officers.

19. From the statement noted in the margin it will be seen that both the "Average number" and "Total number" employed as Prison officers have respectively fallen from 1,027 and 1,572 in 1902 to 892 and 1,496 during the year under report. The ratio per cent., however, of the average number employed as Prison officers to the average number of convicts shows a slight increase both under males and females. The number of reductions and other punishments awarded have also fallen from 960 in 1902 to 828 in the year under report.

Statement No. VIII—Diet.

20. The marginally noted statement shows the different diet scales in force in the Prisons and Subsidiary Jails in this Presidency. The scales have been found to work satisfactorily and such changes as have been made during the year under report have been noted in the fifth column of the statement.

Statement No. XVIII—Under-trial Prisoners.

21. This statement deals with under-trial prisoners confined in Prisons, Subsidiary Jails and Lock-ups. The number of prisoners admitted during the year under report shows a large falling off, which, as explained in paragraph 5 of this report, is due to a better harvest and consequent fall in the prices of food-grains.

22. The number of escapes has risen from 24 in 1902 to 27 in the year under report. Of the latter number, 2 prisoners got away from the Second Class Subsidiary Jail of Ahmednagar and 19 from the Third Class Subsidiary Jails and 6 from Lock-ups and are distributed as follows:—

Subsidiary Jails, Third Class.		*Lock-ups.*	
Násik	8	Dhárwár	3
Dhárwár	2	Upper Sind Frontier	2
Panch Mahals	2	Khándesh	1
Lárkhána	2		6
Thána	1		
Khándesh	1		
Sátára	1		
Karáchi	1		
Hyderabad	1		
	19		

23. There have been 24 deaths—23 males and 1 female—during the year under report against 30 males and 1 female in 1902. Of the 24 deaths, 5 took place in the District and Central Prisons, 3 in the First and Second Class Subsidiary Jails and 15 males and 1 female in the Third Class Subsidiary Jails and Lock-ups. In the statement will be found the names of the Prisons where the deaths occurred. Of the 3 deaths which occurred in First and Second Class Subsidiary Jails, Ahmednagar, Sholápur and Belgaum were responsible for one each. The number of deaths which took place in Third Class Subsidiary Jails and Lock-ups are distributed as shown below :—

Belgaum	District	...	...	...	3
Kolába	do.	...	...	...	2
Dhárwár	do.	...	...	...	2
Khándesh	do.	...	...	...	2
Sholápur	do.	...	...	...	2
Hyderabad	do.	...	...	...	1
Surat	do.	...	...	...	1
Kánara	do.	...	...	...	1
Násik	do.	...	...	...	1
Bombay	do.	...	...	...	1
					16

24. There were on 31st December 1903, 153 males and 8 females in Prisons, 52 males and 6 females in First and Second Class Subsidiary Jails and 620 males and 45 females in Third Class Subsidiary Jails and Lock-ups, thus making a total of 825 males and 59 females.

Civil Prisoners.

25. The year 1903 opened with 139 male prisoners in the Civil Prisons. 1,066 males and 1 female were received during the year, 1,112 males were released, leaving a balance of 93 males and 1 female at the end of the year. The total cost has fallen from Rs. 6,463-14-2 in 1902 to Rs. 6,187-15-6 in the year under report. On account of the comparatively small daily average number of prisoners confined—86 in 1902 and 73 in the year 1903—the cost per head has risen from Rs. 75-3-6 in the earlier to Rs. 84-12-3 in the later period.

FINANCIAL.

Statements Nos. IX and X—Expenditure.

26. The statements noted in the margin deal with the gross expenditure on account of convicted and under-trial prisoners confined in the Central, District and Extramural Prisons and the Subsidiary Jails and Lock-ups. The cost of Police guards has been omitted as usual, and the realization from the sale-proceeds of garden produce deducted from the total charges. The gross expenditure during 1903 has been Rs. 6,76,356 and the cost per head Rs. 74-3-3, against Rs. 8,06,439 and Rs. 70-0-4 in the year previous. Although the total expenditure shows a large decrease, there has been an increase in the "Cost per head," which is chiefly due to a smaller average number of prisoners confined during the year.

Establishment.

27. Notwithstanding the decline of Rs. 6,068 in the total cost under this head, the cost per head (Rs. 27-12-10 against Rs. 22-8-6 in 1902) shows a considerable increase. This is due to a smaller average number of prisoners confined during the year under report. The decrease in the total cost under Prisons (Rs. 2,08,456 against Rs. 2,10,869 in 1902) is mainly due to smaller salaries having been drawn by the Superintendents, Central Prisons, Yerávda and Hyderabad, during the absence on furlough of Major Jackson, and to less expenditure on account of Temporary Establishment in the Central Prison of Ahmedabad and Dhulia Prison due to decline of the prison population. The decrease under "Inspection and General Superintendence" is due to no acting allowance having been paid as was done in the year 1902 while I was on privilege leave.

Dietary Charges.

28. The total cost and the cost per head under "Dietary Charges" have fallen from Rs. 3,90,463 and Rs. 33-14-5 in 1902 to Rs. 2,79,370 and Rs. 30-10-5 respectively during the

year under report. This decrease is partly due to a smaller average number of prisoners confined during the year under report and partly to the cheaper rates of provisioning contracts.

Garden.

29. The value of vegetable and other supplies from the garden attached to our Prisons and Subsidiary Jails shows a slight increase over the figures of the year previous, the figures being Rs. 17,221-5-8 for 1902 and Rs. 17,310-9-8 for the year under report. Owing to a smaller average number of prisoners confined during the year the realizations from vegetables sold to the public increased from Rs. 2,968 in 1902 to Rs. 3,839 in the year under report. The gardens at Yerávda, Ahmedabad and Bijápur again suffered from want of sufficient water.

Hospital Charges.

30. The total cost under this head shows a decrease of Rs. 5,598 due to less sickness amongst prisoners and to cheaper rates for food-grains. The cost per head shows an increase, which is partly due to a smaller average number of prisoners confined during the year under report, and partly to increased expenditure under the sub-head "Medicines, Hospital, Bedding, Clothing, etc.," due to the value of medicines, etc., supplied to some of our Prisons in 1902 having been adjusted during the year under report.

Chothing and Bedding.

31. The total expenditure under this head has fallen from Rs. 34,882 to Rs. 29,417, while the cost per head has risen from Rs. 3-0-5 to Rs. 3-3-8 during the year under report. The decrease in the total cost is partly due to the smaller number of prisoners admitted during the year under report, and partly to smaller supplies having been indented for by the Central Prisons of Ahmedabad and Hyderabad on account of having a large balance of clothing on hand. The expenditure in both the Yerávda Central Prison and Shikárpur Prison show an increase of Rs. 1,487 and Rs. 544, respectively, which is due in the case of the former Prison to the value of clothing for the year 1902 having been adjusted during the year under report, and in the case of the latter to a larger supply of woollen blankets during 1903.

Sanitation Charges.

32. The total cost and the cost per head have risen respectively from Rs. 23,288 and Rs. 2-0-4 in 1902 to Rs. 25,925 and Rs. 2-13-6 in the year under report. This increase is due to the payment of Rs 5,474-9-2 to the Bombay Municipality for the treatment of convicts who were suffering from plague and who were sent from the two Bombay Prisons to the Arthur Road Hospital between October 1899 and May 1900, *vide* Government Resolution, Judicial Department, No. 1317, dated 7th March 1903, and also to the construction of temporary huts for the establishment of the Dhulia Prison on account of plague.

Charges for moving prisoners.

33. This head shows an increase of Rs. 1,910 over the figures for the year 1902 due to a larger number of transfers of prisoners from one Prison or Jail to another, alluded to in paragraph 6 of this report, to the move of the Sind Convict Gang from Pad Idan to Hyderabad and to the payment of road subsistence to a large number of prisoners released on the 1st January 1903 on account of the Coronation. It is also due to the deportation to the Andamans of 183 prisoners, as stated in paragraph 6 of this report, as against 159 in the year previous.

Charges for other miscellaneous services and supplies.

34. Although the total cost under this head shows a decrease of Rs. 4,420, the cost per head has risen from Rs. 2-2-11 to Rs. 2-4-4 during the year under report. This is due to a smaller average number of prisoners. With the exception of the Sub-heads "Money payments as rewards for recapture and services" and "Execution charges" all the heads show a decline. In the case of the former which shows an increase of Rs. 1,362 it is due chiefly to the payment of deferred pay to the unusually large number of convict officers who were released in consequence of the Coronation on the 1st January 1903. The increase under the latter head being small does not call for any comment.

35. The total expenditure under this head shows an increase of Rs. 784. The expenditure shows a marked increase in First and Second Class Subsidiary Jails and Inspection and General Superintendence. It is due, in the former case, to a good many transfer of Jailors from one Jail to another having been found necessary, and in the latter case to my inspection of the Aden Special Prison.

Travelling Allowance.

36. The total cost of contingencies has risen from Rs. 8,491 to Rs. 9,280 and this increase is noticeable in our Prisons and Inspection and General Superintendence. In Prisons the head "Service Postage" and "Current Office Expenses" show a rise. For the former the Central Prisons of Yerávda and Hyderabad are mainly responsible. This rise is due to the value of service postage stamps required for the quinine industry having been included under "Contingencies" during the whole year. For the latter, the Central Prison of Yerávda is responsible, the increase being due to more printing and binding of account books and registers by the Press.

Contingencies.

37. This head shows a decline of Rs. 3,559 over the figures of the previous year, and is most marked under the sub-heads "Conservancy and Water-supply Dead Stock," "Dietary Dead Stock," "Hospital Dead Stock," "Disciplinary Dead Stock" and "Arms and Accoutrements." The decline is chiefly due to larger purchases of dead stock articles having been made by the Central Prison, Yerávda, and the Deccan Gang during 1902 as compared with the year under report.

Extraordinary charges for Live Stock, Tools and Plant.

38. The statement noted in the margin deals with the employment of convicts in our Prisons and 1st and 2nd Class Subsidiary Jails. It would appear that the average number of prisoners sentenced to labour has decreased from 9,447 in Prisons and 469 in Subsidiary Jails of the 1st and 2nd Class in 1902 to 7,460 and 346 respectively in the year under report. The percentage of sick and convalescent in Prisons has fallen from 6·8 to 5·6, and in Subsidiary Jails from 5·8 to 3·2. Owing to the admissions having fallen and the smaller number of prisoners requiring to be quarantined in consequence, there is a decrease both in Prisons and Jails in the "average number not employed for other reasons." The percentage however shows an increase. The decrease under "unremunerative labour" is attributable partly to the prisoners of the Bijápur Prison not being employed this year in cleaning and levelling the ground in the city and more suitable work having been found for prisoners of H. M.'s Common Prison, Bombay, and partly to a smaller daily average number. The number employed as Prison officers shows a decrease of 133 in Prisons as compared with 1902 but is nearly the same in both the years in Subsidiary Jails. The percentage shows an increase in both. The percentage of Prison servants in Prisons has risen from 10·1 in 1902 to 10·8 in 1903, but the average number has fallen from 953 to 806 in 1903. The Subsidiary Jails also exhibit a decline. The average number on "gardening" and "grinding grain and preparing articles for Prison use" shows a decline due to a smaller average number of prisoners confined in our Prisons and 1st and 2nd Class Subsidiary Jails, and to this cause is attributable the decline under "Additions and Alterations, etc.," "Manufactures" and "Extra-mural Labour." Under Subsidiary Jails a very small increase is however noticeable under "Additions and Alterations" and "Extra-mural Labour."

Statement No. XI—Employment of convicts.

39. The statement noted in the margin shows the net cash earnings of convicts sentenced to labour. The cash earnings have fallen from Rs. 83,249 in 1902 to Rs. 62,506 during the year under report, and is most noticeable in the Central Prisons of Yerávda and Hyderabad, the District Prisons of Dhulia, Thána and Karáchi, and the Deccan and Sind Convict Gangs. The Central Prison of Yerávda shows a loss of Rs. 247-14-0. This loss is not real. The ordinary Factory operations show a profit of Rs. 10,190-3-0 while the Printing Press exhibits a loss of Rs. 10,438-1-0. This apparent loss in the Press will be explained in paragraph 45 below. The net profit of the Yerávda Prison Fac-

Statement No. XII—Net Cash Earnings.

tory (exclusive of the Printing Press) shows a profit of Rs. 5,664 against Rs. 7,990, due to a smaller average number of prisoners employed in the Factory and to a temporary lull in orders for woollen carpets, resulting in the sale proceeds for this industry amounting to Rs. 2,325 during the year under report against Rs. 5,108 in 1902. In the Central Prison of Hyderabad the fall in the cash profits is chiefly due to the smaller average number of prisoners employed and to no suitable extra-mural work having been found for the prisoners as was the case in 1902 when a gang was employed on canal clearance work at Miani and earned a considerable amount of money. The decline in the Thána Prison is due to less extra-mural work being undertaken, to a large stock of goods manufactured in 1901 being sold in 1902, to a stock of goods manufactured in 1903 not being disposed of by the end of the year and to the purchase of Europe stores. The decrease in Dhulia is due to a smaller average number of prisoners employed and to far less extra-mural work. The decrease in Karáchi is due to a smaller average number of prisoners employed and to the demand for sand having entirely ceased. As regards the decrease in the Sind and Deccan Gangs explanation will be found in paragraphs 41 and 42 respectively. Of the above sum of Rs. 62,506, Rs. 27,694 show the profits of our Prison Factories, Rs. 32,766 of extra-mural labour, and Rs. 35 for wages of convicts hired to contractors on Prison buildings. A sum of Rs. 2,011 represents the earnings of our 1st and 2nd Class Subsidiary Jails which show an increase of Rs. 351 over the figures of the year previous. The Factory operations show an increase of Rs. 6,990, while under extra-mural labour there has been a decline of Rs. 28,036. The average cash earning per head of those sentenced to labour and of those employed on Jail Manufactures has, in the case of Prisons and 1st and 2nd Class Subsidiary Jails, fallen respectively from Rs. 8-6-0 and 24-15-0 in 1902 to Rs. 8-0-0 and 22-14-0 in the year under report. This decline is due, as above stated, to less extra-mural employment having been found for convicts in some of our Prisons and Gangs and to the decrease in the prison population.

40. The value of Jail-made articles sold to other Government Departments show a slight decrease of Rs. 50 only, the figures being Rs. 11,550 in 1903 against Rs. 11,600 during the year 1902. Articles sold to Public Works, Telegraph, Commissariat, Marine and Military Departments show an increase, while there has been a corresponding decline under Other Civil Departments. The figures for 1903 are Public Works Department Rs. 1,128, Telegraph Department Rs. 867, other Civil Departments Rs. 5,810, Commissariat Department Rs. 57, Marine Department Rs. 2,749 and Military Department Rs. 989.

Sind Gang.

41. This Gang was moved from its camp near Pad Idan Railway Station to Hyderabad in October 1903 and is now employed in breaking ballast for the Hyderabad-Badin Railway Extension. The canal excavation work on the Nasrat Bagwah, on which the Gang was formerly employed, was completed in the beginning of July 1903. From July till October 1903 the Gang was employed on some petty remunerative works earning only Rs. 702 and on some unremunerative labour. During the months of October and November the Gang was employed in building its new camp. The earnings of the Gang have therefore fallen considerably and with an average population of 292 prisoners have earned Rs. 9,350 against Rs. 17,552 with a population of 353 prisoners in 1902. During the current year (1904) the earning should be good, as the Gang has sufficient work to occupy it till the end of December.

Deccan Gang.

42. This Gang was located at Visápur the whole of the year. The earnings of the Gang have fallen from Rs. 25,337 with an average of 905 prisoners in 1902 to Rs. 17,555 with an average of 766 prisoners during the year under report. The decline in profit is due to lower rates, sanctioned by Government in their Resolution, Public Works Department, No. A-I-2914, dated 18th December 1903, having been adopted for adjustment of the value of work done by prisoners from 1st April 1903, and to the smaller average number employed on works.

Sale of quinine packets.

43. The quinine industry in the Central Prisons of Yerávda and Hyderabad has yielded a profit of Rs. 1,757 in the year 1903 against Rs. 2,909 in 1902. The value of quinine and packing materials purchased during the year was Rs. 13,713 against Rs. 17,091 in the

year 1902 and the amount paid into the Treasury in the year under report was Rs. 17,402 against Rs. 15,708 in 1902. The decline in profits is due mainly to smaller stock of raw materials and manufactured articles remaining in hand at the close of the year under report than was the case in 1902.

Yerávda Printing Press.

44. The Yerávda Printing Press has, during the year under report, executed the following works in addition to supplying all requirements for the Jail Department :—

Magisterial and Police and Judicial Forms printed in four languages	10,731,017
Magisterial and Police and Judicial Books printed and bound, in four languages	37,727
Stock envelopes printed for supply	2,715,260
Special envelopes	356,568
Deccan Agricultural Relief Act Forms	341,920
Forms and Books printed and bound for the Registration Department—Forms printed in four languages ...	289,500
Books printed and bound, in four languages ...	4,885
Guard Books for the above Department	600
Do. for the Stationery Department ...	429
Blank books bound for the Stationery Department ...	50

The above shows that the work at the Press continues to increase.

45. As stated in paragraph 39 of this report the Printing Press shows a loss of Rs. 10,438-1-0 in cash profits. The net profits however amount to Rs. 49,978-3-11. The latter figures are obtained by taking the liabilities and assets of the industry into account. The loss under "Cash transaction" is mainly due to the distribution, and consequent sale of stock, of Judicial and Magisterial and Police Forms valued at Rs. 82,000 having commenced late this year, *viz.*, towards the end of December 1903. This has resulted in a large stock of manufactured articles (forms) valued at Rs. 1,02,422 being on hand at the close of the year under report as against Rs. 53,046 in the year previous.

Statement No. XIII—Net cost.

46. It will be seen from this statement that the total cost excluding charges for "Inspection and General Superintendence" has amounted to Rs. 6,40,954 during the year under report against Rs. 7,68,462 in the year 1902. The total cash earnings have been Rs. 62,506 against Rs. 83,249, thus making the total net cost to Government of Rs. 5,78,448 against Rs. 6,85,213 in 1902. The average net cost per prisoner during the year under report has been Rs. 63-7-0 against Rs. 59-8-0 or an increase of Rs. 3-15-0 over the figures of the previous year. This is due to the average cost of maintenance having risen considerably on account of the smaller average number of prisoners confined during the year under report as compared with 1902, the loss of extra-mural work, heavy charges under sanitation and charges for moving prisoners from prison to prison, deferred pay to convict officers and subsistence money to prisoners due to the releases which took place on the 1st January 1903.

Vital.

Statement No. XIV—Sickness and Mortality.

47. The marginally noted statement shows the sickness and mortality amongst prisoners of all classes during the year. With a daily average strength of 9,188 prisoners confined in Central, District, Special and Extra-mural Prisons, Subsidiary and Civil Jails and Lock-ups there have been 4,865 admissions into hospital. The daily average number of sick has been 204·0 and the total number of deaths 237, or a ratio of 25·8 per mille of average strength. The figures for the year 1902 are as under :—

Daily average strength 11,602; admissions into hospital 7,916; daily average sick 326·9; the total number of deaths 327 or a ratio of 28·2 per mille of average strength.

48. The following table shows the capacity of our prisons together with the daily average and the maximum population confined therein on any one day during the year under report. The hospital accommodation for male prisoners in the Ahmedabad Central Prison having been increased from 26 in 1902 to 35

in the year under report, the total accommodation of the above Prison has, in consequence, been raised from 920 in the earlier to 929 in the later period :—

Prisons.	Capacity, inclusive of hospital and cell accommodation.	Daily average.	Maximum population.
Common Prison	180	407	500
House of Correction	262	263	345
Yerávda	1,580	1,468	1,708
Dhulia	234	400	519
Bijápur	294	301	368
Dhárwár	336	349	535
Kárwár	252	180	226
Ratnágiri	228	129	137
Thána	730	712	841
Ahmedabad	929	941	1,051
Rájkot	102	103	145
Karáchi	412	224	317
Hyderabad	865	680	781
Shikárpur	433	493	615
Aden	84	30	43
Total ...	6,921	6,680	8,131

49. From the figures appearing in the table given in the foregoing paragraph it will be seen that looking to the daily average all the Prisons except the Prisons of Yerávda, Kárwár, Ratnágiri, Thána, Karáchi, Hyderabad and Aden were overcrowded throughout the year. Out of the remaining 8 Prisons and 2 Extra-mural Gangs, the Sind Gang (126·7), House of Correction (60·8), Karáchi (57·5), Common Prison (49·2), Hyderabad (36·7) and Shikárpur (34·3) exhibit a ratio of mortality in excess of 33·3 per mille of average strength.

50. Every endeavour has been made to terminate the overcrowding, as far as possible, by making transfers, by utilizing tents, temporary sheds, &c., for the accommodation of the excess population of our Prisons. The year 1903 opened with a population of 9,361 prisoners in Prisons and 428 in 1st and 2nd Class Subsidiary Jails, and closed with 7,696 prisoners in Prisons and 453 in Subsidiary Jails of the 1st and 2nd Class.

51. It will be seen, from the figures in connection with the sickness and mortality amongst convicts and undertrials confined in Prisons during the past two years, that with the fall in the daily average strength during the year 1903 the daily average of sick has decreased from 304·7 in 1902 to 188·7 in the year under report. The ratio per mille of deaths to daily average strength has fallen from 29·0 to 26·6 while that of admissions into Hospital has risen from 44·5 to 51·3. The number of deaths has fallen from 285 to 206 in the year under report.

Sind Gang.—There were 37 deaths at this Gang during the year under report. Excluding the 33 deaths from Pneumonia which broke out in an epidemic form and which has been reported to Government under this office letter No. 906, dated the 8th February 1904, four deaths only occurred from other causes during the year. It will thus be seen that had it not been for the unfortunate epidemic the death ratio would have fallen to 14·04 per mille of average strength. The Superintendent of this Gang has usually good cause to complain about the position of the Camp. This will not be the case this year. The Camp is well situated three miles from Hyderabad, the water is excellent, the climate good, and the work on which the prisoners are employed clean as compared with canal digging work.

House of Correction.—Out of a total number of 16 deaths which occurred during the year Tubercle accounts for 7 and Pneumonia and Relapsing Fever for three each. The Medical Officer writes:—"The overcrowding and structural defects of the Prison probably tend to increase the sickness amongst the prisoners."

Karáchi.—Of a total number of 13 deaths which took place during the year Pneumonia was responsible for 2, Syphilis and Diarrhœa for 2 each, and Tubercle of Lungs for 1. The Medical Officer states:—"The sickness has been due in a great measure to causes outside the Prison. Many of these coming under treatment being syphilitic or infected by Malaria before entering the Jail. The causes of Dysentery and Diarrhœa are not traceable."

Common Prison.—There were 21 deaths of which 5 were due to Relapsing Fever, 2 to Plague, 2 to Dysentery, 2 to Diarrhœa, 1 to Pneumonia and 1 to Tubercle of the Lungs. The Medical Officer remarks:—"I consider the Prison is very defective structurally from a Sanitary point of view. This has been gone into in detail in the report on the outbreak of Relapsing Fever, dated 1st October 1903. The Hospital accommodation is most unsatisfactory." In this connection I would invite the attention of Government to this office letter No. 7309, dated 23rd October 1903. With regard to the Hospital improvements suggested by the Medical Officer of the Prison I would solicit the attention of Government to my letter No. 2165, dated 30th March 1904, requesting permission to my calling for plans and estimates from the Executive Engineer, Presidency, for the proposed improvements. Lieut.-Colonel M. Collie, who is also the Medical Officer of H. M.'s House of Correction, has made similar suggestions with a view to improve the structural defects in the Hospital accommodation of that institution, but I have held the question in abeyance pending the orders of Government on the subject referred to in the above-quoted letter.

Hyderabad.—There were 25 deaths (including 1 under trial) in the Central Prison. Out of the total number of 25 deaths 6 were due to Pneumonia, 4 to Dysentery, 4 to Bronchitis and 1 to Tubercle of Lungs. The Medical Officer of the Prison states:—"The amount of sickness such as to justify admissions to, and detention in, Hospital has diminished. Diseases associated with defective dietary or water-supply have diminished, for example Diarrhœa, Dysentery and Scurvy. The only form of sickness calling for serious considerations is the prevalence of Pneumonia during the cold weather, but these cases too have diminished in number. Strict rules have been followed as regards the opening of all windows in the sleeping barracks at night and to these rules the decline in Pneumonia is attributable."

Shikárpur.—Of the 17 deaths (including that of 1 under-trial) which occurred during the whole of the year Pneumonia claims 8, Tubercle 3 (including 1 under-trial), Diarrhœa 2, Heat-stroke 2, Small-pox 1 and Dysentery 1. With regard to sickness and mortality the Medical Officer reports:—"The health of the prisoners on the whole was satisfactory during the year under report. There was a decrease both in the daily average of sick and the daily average of sick per mille as compared with the previous year. The rate of mortality was higher than in 1902 and the increase was due to 3 deaths under Tubercle and 1 under Small-pox against none in the previous year. The chief cause of mortality was Pneumonia which accounted for 8 deaths against 7 in 1902. Two of the prisoners dying from Tubercle developed the disease soon after admissions and they were probably suffering from it before admission. The third case occurred in an under-trial political prisoner. He was originally suffering from Scurvy, and Tubercle developed only as a terminal infection. The case of Small-pox occurred in one of the attendants on patients suffering from that disease."

Plague.

52. During the year under report there were 10 cases of Plague in our Prisons and Subsidiary Jails of the First and Second class, of which 8 proved fatal. Out of the 3 attacks in the Common Prison, Bombay, 2 died and the third was discharged otherwise. In the Central Prison of Yerávda there were 2 cases and 1 death. There was a single case of Plague in the Thána Special Prison which terminated fatally. Of the 4 cases in Second class Subsidiary Jails, *viz.*, 3 at Sholápur and 1 at Ahmednagar, all the cases proved fatal. With regard to the case of Plague in the Thána Special Prison the Medical Officer remarks:—"Although precautionary measures had been in force since the last two years against the introduction of Plague into the Prison, 1 case of the disease occurred in March among the prisoners. The victim had been employed as a water-carrier for

the use of the prisoners. The disease was then still prevalent in the town." As Plague was prevalent throughout the Presidency we were fortunate in having so few cases. As a precautionary measure inoculation was resorted to in many of our Prisons.

53. As stated in the earlier portion of this report the ratio per mille of deaths to daily average strength in Central, Special, District and Extramural Prisons during the year under report has been 26·6 as compared with 29·0 in the year 1902. If the deaths which were due to Plague, Pneumonia and Relapsing Fever were left out of calculation the ratio would fall to 16·5.

54. The following measures, which were adopted during the year under report, with a view to improve the health of the prisoners confined in some of our Prisons and Jails, are inserted in accordance with the orders contained in paragraph 1 of Government Resolution, Judicial Department, No. 9115 of 29th December 1896 :—

1. Issue of wheat and rice in lieu of bájri and jowári.

2. Issue of extra rations to weakly prisoners and convalescents.

3. Issue of an extra morning meal consisting of 2 oz. of warm conjee to prisoners of the Sind and Deccan Convict Gangs before they started to work.

4. Issue of extra clothing to weakly prisoners.

5. Free administration of cinchona alkaloids and quinine whenever necessary in places showing tendency to Malaria.

6. Inoculation by Professor Haffkine's prophylactic serum.

7. Issue of potatoes in lieu of green vegetables.

55. Reviewing the health statistics of Subsidiary Jails and Lock-ups, it appears that the total population has fallen from 69,899 to 64,902 and the daily average strength from 1,685 to 1,377. The daily average sick during the year under report was 15·3 against 22·2 in the year 1902. The ratio of deaths per mille to daily average strength has fallen from 24·3 to 22·5.

Statement No. XV—Chief diseases.

56. From the figures appearing in the marginally noted statement it will be seen that there were no cases of Cholera in any of our Prisons. There has been a decline in admissions under all the heads except "Other Respiratory Diseases" which shows a small increase of 9 over the figures of the year 1902. The number of deaths has also fallen under all the heads except "Pneumonia" in which there is a rise of 9 as compared with 1902 and, as explained in paragraph 51 of this report, is due chiefly to the outbreak of the above disease in the Sind Gang. The decrease under admissions is most marked under the heads "Dysentery," "Malarial Fever," "Other General Diseases" and "Diarrhœa" and is in a great measure attributable to the decline under admissions in our Prisons and better health rate of prisoners. The Central Prisons of Yerávda and Ahmedabad, the Prisons of Dhulia and Kárwár and the Deccan Gang are mainly responsible for the decline under "Dysentery" while decrease under "Malarial Fevers" and "Other General Diseases" is most noticeable in the Central Prisons of Yerávda and Ahmedabad and the Deccan Gang. With regard to the great fall in admissions under "Malarial Fevers" in the Yerávda Central Prison,—66 in 1903 against 468 in 1902,—the Medical Officer remarks :—"Ague : a marked diminution : all men on extra-mural work get quinine 5 grains twice weekly. All men with malarial taint get 5 grains for three days at a time : four times a month." The Central Prisons of Yerávda and Hyderabad are mainly responsible for the decline under "Diarrhœa."

Statement B.

57. Out of the total number of 17,349 prisoners who were discharged during the year, 9,419 or in other words 54·3 per cent. gained weight against 54·5 per cent. in the year 1902, 3,804 or 21·9 per cent. lost weight against 24·6, and 4,126 or 23·8 per cent. remained stationary as compared with 20·9 in 1902.

OFFICIAL AND NON-OFFICIAL VISITORS.

58. There were 291 official visitors during the year for 17 Prisons and 13 Principal Subsidiary Jails. The 74 quarterly meetings which were held during the year were well attended. The visits paid to our Prisons and Subsidiary Jails by official visitors numbered 855, and by non-official visitors 219.

BUILDINGS.

59. During the year under report the following allotments were sanctioned :—

(1) Rs. 99,000 towards constructing the new Prison at Karáchi.

(2) Rs. 45,500 for the new prison at Sukkur. In addition to the above a sum of Rs. 9,000 was allotted for discretionary grant of this Department of which amount Rs. 8,995 have been expended.

MISCELLANEOUS REMARKS.

60. During the year 1903 the following Prisons, Gangs and Subsidiary Jails were visited by me :—

Central Prisons.	District Prisons.	Subsidiary Jails of 1st and 2nd Class.	Gangs.
Hyderabad. Yerávda.	Thána. House of Correction. Common Prison. Karáchi. Shikárpur. Dhárwár. Bijápur. Dhulia. Rájkot. Kárwár. Aden.	Sátára. Sholápur. Ahmednagar. Bhusával. Surat. Broach. Umarkot. Godhra. Wadhwán.	Deccan Gang. Sind Gang.

61. As stated in paragraph 6 above, 1,845 convicts were released on the 1st January 1903 as an act of clemency in connection with His Majesty's Coronation. The work of arranging for these releases fell heavily on all Superintendents. The day of release was a busy and responsible one with these officers and for many days afterwards their ordinary daily work was increased and unusual trouble was given to them. It can be easily understood that the disappearance of so many convicts from our Prisons on one day was very serious, as we look to our convict officers to maintain discipline and direct our Factories. On the 1st of January all Prisons lost their best convict officers. The District Prisons felt the loss most and many were unable to promote and had to apply to the Central Prisons for suitable convicts. Thus Superintendents of Central Prisons had not only to look after their own interest but also those of the District Prisons. No habitual convicts were released and it was satisfactory to note that they did not at all like being treated differently from ordinary convicts on this occasion.

62. Funds have been allotted for the erection of cubicles in the new Karáchi and Sukkur Prisons. The netting for the new Karáchi Prison is being prepared in the old Prison.

I have the honour to be,

Sir,

Your most obedient servant,

H. N. ALEXANDER,

Inspector-General of Prisons,

Bombay Presidency.

STATEMENT.

General Summary showing the Distribution of the Prisoners of all Classes confined
